DI BERGAMO

The University of Bergamo (UB)

UB is a state university with more than 23,000 students enrolled on various degree programs: 15 undergraduate degrees, 25 graduate degrees, 6 PhD programs.

The 8 Departments and the 7 Research and Service Centers enjoy very close connections with the town, its institutions, and its cultural and economic environment. They are grouped in three campuses located in three different areas: Campus of Economics and Law (Bergamo), Campus of Humanities (Upper Bergamo) and Campus of Engineering (Dalmine).

The strengths of UB are the wide range of courses on offer (also through distance learning projects), excellent use of the numerous laboratories available, ambitious research centers, and the fact that it operates in one of the most dynamic areas in Italy, both from a cultural and an economic point of view
